

Exercise 8. Download the plugins in Jenkins

The screenshot shows the Jenkins web interface at the 'Download progress' page. The left sidebar contains navigation links: Updates, Available plugins, Installed plugins, Advanced settings, and Download progress (which is highlighted). The main content area is titled 'Download progress' and shows a list of plugins being downloaded, all with a 'Success' status. The plugins listed are: Javadoc, JSch dependency, Maven Integration, JaCoCo, DataTables.net API, Forensics API, Prism API, Coverage, Copy Artifact, Config File Provider, SSH server, and Jersey 2 API. The top navigation bar includes the Jenkins logo, a search bar, and a user profile for 'Purushothaman' with a 'log out' button. The browser's address bar shows the URL 'localhost8064/manage/pluginManager/updates/'.

Plugin Name	Status
Preparation	• Checking internet connectivity • Checking update center connectivity • Success
Javadoc	Success
JSch dependency	Success
Maven Integration	Success
JaCoCo	Success
DataTables.net API	Success
Forensics API	Success
Prism API	Success
Coverage	Success
Copy Artifact	Success
Config File Provider	Success
SSH server	Success
Jersey 2 API	Success
